## **Reminders:**

- All classes will begin promptly. Please do not arrive late or leave early, because you will miss vital information for your SAT test.
- Come prepared to learn. This course review is a privilege and expectations for student behavior are high. Disruptive behavior will not be tolerated. Any student who disrupts the learning process will be asked to leave.
- This is an accelerated course designed to move at a challenging pace.
- To obtain the optimum results on the SAT I, students should complete the assigned review exercises, diagnostic tests, and practice tests for homework before the next course session. Students must be able to “keep up” and be intrinsically motivated to work independently.
- **It is highly recommended that you purchase the SAT prep book, “Cracking the SAT” by Princeton Review, prior to classes starting. A limited number will be available for reference during class. You will work from this book every session.**

.....  
Yes, I would like my student to participate in the following SAT preparation classes:

- Math
- Verbal
- Writing

I understand that this is a commitment. My child will be on time and attend all sessions that they sign up for.
